

# HP Designjet CP Ink Systems

**Specially created for owners and users of  
HP Designjet 2000 CP and 3000 CP Printer series  
(Dye and UV).**

The complete dye- or UV-based ink system – including printhead, printhead cleaner and ink cartridge – works together with the printer and printing material to produce clear, sharp results.

Both HP CP Ink Systems ensure a clean and easy replacement for rapid exchange of dye and UV ink systems.

High-capacity inks mean you can print for longer without needing to replace supplies as regularly. And when supplies eventually run out, the entire ink delivery system can be replaced in a matter of minutes.

Weather-durable, pigment- or dye-based inks guarantee lasting colour indoors and outdoors which resist moisture, temperature etc.

The HP Designjet CP Ink Systems are large-capacity, dye-based or pigment-based ink systems providing best-in-class print quality and unattended operations for HP Designjet CP Printer series.
