

hp no.49 tri-colour inkjet print cartridge

The HP No.49 (51649ae/ne) Tri-colour Inkjet Print Cartridge is designed for HP Deskjet, Deskwriter or Officejet users who are looking for an outstanding combination of productivity, photo quality colour printing and a competitive cost per page. With its 22.8ml capacity, this cartridge delivers an average of 310 pages at 15% density.

This is the colour cartridge used on most HP Deskjet 600 series printers, Deskwriters 600 & 660c, and Officejet 500, 600 and 700 series All-in-ones. It can also be used with the new HP Deskjets 350c and 350cbi, both of which are mobile printers designed for use with laptops PCs.

true-to-life vibrant colours

Proprietary HP inks are designed to deliver the best possible print quality - every time - and the extremely small ink drops delivered by this cartridge ensure smooth skin tones and colour gradients, better image resolution, sharper edges and smoother colour transitions. This makes the No.49 cartridge an excellent choice for printing photographs with vibrant colour and true-to-life images.

low cost option for low volume users

In addition to the standard cartridge, there is also an 11 ml light user option (51649ne) with the capacity to print up an average of 155 pages at 15% density. This is designed to appeal to infrequent users, for whom a lower cartridge price is often a key purchasing decision.

features

- for use with most hp deskjet 600 series printers and the 500, 600 and 700 series all-in-one officejets
- compatible with new deskjet 350 printers
- genuine hp ink

- photo quality images with smooth tones and colour gradients, better image resolution and sharper images
- easy customer selection
- quick, simple and clean replacement
- attractive low cost option of low volume users

hp no.49 tri-colour inkjet print cartridge

frequently asked questions

who will use the No.49 cartridge?

The HP No.49 Tri-colour Inkjet Print Cartridge has been designed for users of most HP Deskjet 600 series printers, Deskwriters 600 & 660c, and Officejet 500, 600 and 700 series All-in-ones. These customers will be looking for reliability and photo quality output at a competitive cost per page.

what's the benefit of printing with very small ink drops?

More ink drops per dot allows smoother colour transitions and better image resolution. This in turn results in true-to-life, photo quality colour images. The No.49 cartridge is therefore ideal for creating business reports, newsletters, design ideas, presentations and special projects.

is there anything special about the inks themselves?

These dye-based inks are designed as a key part of the entire printing system, and have been specifically engineered to work together with HP printers and papers to deliver consistently high quality results, from first page to last.

can this cartridge be used with all hp media?

While the No.49 cartridge will deliver great results on standard office paper, it is specially engineered to work with HP papers and films. This new cartridge is compatible with our full media range, from photo papers to transparency films.

does the No.49 cartridge work with the new deskjet mobile printers?

Yes. The HP deskjets 350c and 350cbi mobile printers will both accept either a black or a tri-colour cartridge; the No.19 black cartridge may be replaced with the HP No.49 tri-colour inkjet print cartridge for colour output.
