

hp LaserJet 2300 smart print cartridge

The HP LaserJet 2300 smart print cartridge provides professional print quality combined with fast, consistent performance and dependability plus an easy-to-use design for cost-effective, high-capacity monochrome laser printing. Designed specifically for the printer, it provides crisp, sharp results every time you print. HP's advanced toner formulation and smart printing technology further complement the printing system to enhance results and facilitate easy and efficient supplies management.

consistently high print quality

HP's advanced toner formulation and improved technology for accurate placement and control of toner particles provide extra sharp black text and smooth greyscales, delivering optimal results every time you print. Consistent print quality is further ensured by HP smart printing technology, which allows for automatic adjustments to the electro-photographic system, ensuring consistent toner particle distribution throughout the life of the cartridge.

ease-of-use and maintenance

HP smart printing technology allows HP supplies status and usage information to be constantly monitored and communicated through the printer's display or standard web browser. Alerts can be sent to dedicated users and administrators when supplies need replacing. A convenient all-in-one cartridge design enables effortless installation and maintenance. A no-shake capability eliminates the need to shake the cartridge at end of life, minimizing user intervention.

reliable performance

Precise matching of HP print cartridge design, toner and printing process components guarantees a consistently reliable performance and time saving operations, underpinned by rigorous quality testing and HP warranty.

business-ready output

An instant-on fuser enables fast first page out with no warm-up delay, ensuring the first page is printed in under 10 seconds.

highly cost-effective printing

With an average output of 6,000 pages plus a package of innovative features, combined with HP's renowned reliability, the HP LaserJet 2300 smart print cartridge offers a competitive standard cost-per-page and overall low cost-of-ownership.

features

- print cartridge and printer series designed together to work together
- accurate placement and control of toner particles
- all-in-one cartridge design
- smart printing technology
- instant-on fuser
- average output of 6,000 pages at 5% coverage

benefits

- 100% compatibility for the best possible results
- extra sharp black text and smooth greyscales
- easy and fast installation and replacement
- reliable operations
- optimized output quality
- maximised printer uptime and productivity
- simplified supplies management
- first page out in under 10 seconds
- cost-effective printing
