

HP No. 84 Ink Supplies

Reproduce the look and feel of offset printing with dye-based blacks, light dye-load colours and an innovative modular ink delivery system from HP.

HP No. 84 Ink Cartridges and Printheads

Designed for graphic designers – freelancers, studios, agencies, publishers and more – as well as marketing communication departments and pre-press houses, seeking accurate, high-quality reproductions with the look and feel of offset printing.

With a 4-picolitre drop size, the separate light dye-load cyan, magenta and dye-based black inks are part of a 6 ink system, which produces high-quality images up to 2400 dpi, for smoother transitions and better colour accuracy in photo-quality graphics.

The HP Modular Ink Delivery System includes long-lasting printheads and ink cartridges – cutting the

cost of regular replacement. The easy-selection system means you need only replace individual components as they actually run out – not all together.

As well as easy-to-replace printheads and cartridges, the modular ink system includes smart features that alert you to low-running ink supplies, eliminating guesswork and potentially costly downtime.

Save time and money with faster, more cost-effective printing. A wide print swath and 304 nozzles per printhead ensure minimum wait time, while the economical modular supplies mean an attractive cost per print.

HP No. 84 Black 3-Ink Cartridge Multipack

Designed for professionals in graphics-intensive roles.

Consistently outstanding photo-image quality. Patented, dye-based inks in the HP No. 84 Black Ink Cartridge produce precise detail, excellent gloss uniformity and consistent results with HP Smart Printing Technology that is built into the system.

The cost-effective HP No. 84 Black Ink Cartridge provides reliable, efficient operation to minimise user intervention and improve productivity. The HP No. 84 Black 3-Ink Cartridge Multipack provides additional savings and convenience for high-volume printing.

Enjoy low maintenance, trouble-free printing. HP No. 84 Black Ink Cartridge is designed together with your printer. Interactive HP Smart Printing System Technology provides alerts when ink is low and makes HP Supplies easy to install and maintain.
