

# HP Genuine Long Life Consumables (LLCs)

## COMPATIBILITY GUIDE

Get optimal print quality and keep your printer, multifunction product (MFP), or scanner up and running smoothly with HP Genuine Long Life Consumables (LLCs). When your printer prompts you that it needs maintenance, simply pull out the kit and replace parts as needed.

### IMAGE TRANSFER KIT

---

Although your HP device's original transfer belt and drum are built to last, they wear down over time and may require replacement. An HP Image Transfer Kit has everything you need to ensure your device keeps delivering optimal print quality.

### INK/TONER COLLECTION KIT

---

HP utilises several different methods to collect unused toner, paper fibers, and dust in the imaging system. Some toner collection units (TCUs) are built into our all-in-one cartridges; others are physically incorporated into an LLC or packaged with a maintenance kit.

The TCU is an easy-to-replace, high-yield HP supply designed to reduce user-intervention rates. On many devices, the printer control panel provides a proactive alert when the TCU is approaching its end of life and you need to order a replacement.

### FUSER MAINTENANCE KIT

---

The fusing assembly in your HP device bonds toner to paper through a combination of heat and pressure. Replacement of your device's fusing assembly is simple with the HP Fuser Maintenance Kit.

### ADF MAINTENANCE KIT

---

Your HP device's ADF makes scanning and copying documents fast and simple. Stay productive and keep your ADF working properly with an HP ADF Maintenance Kit.

After installing the replacement kit in your device, easily recycle your old parts for free through the HP Planet Partners programme.<sup>1</sup>
